Thread Onboarding

Get on board with offloading your hiring processes!

NO PAPERCUTS

We save you time by doing everything from the offer letter to the last piece of new hire e-paperwork. Plus with isolved's tech and automation, you see everything in one place!

NO CHASING

You have enough to handle outside of hiring. We serve as the point of contact for your new hires so you can focus on your current team while we prepare the incoming employee.

NO WORRIES

We proactively communicate with you three times per week with updates including sharing a new hire tracker so you can always be sure where your candidate are.

You save so much time and energy by not playing phone tag with new hires, teaching them how to fill out forms, and ensuring they hit 'submit.' Plus, you can choose which items you want to offload to us and which you want to keep.

Prefer to make the verbal offer yourself? Great! We'll take it from there!
Like to run your own background checks? Not a problem!

We can customize your onboarding package to suit your needs.

We can:
- create offer letter templates
- build digital new hire packets
- complete e-verify process
- initiate background checks and drug screenings
- get new hires through the onboarding wizard
- ensure i-9s and tax forms are completed
- field onboarding questions so you don't have to

OFFLOAD YOUR OFFER LETTER TEMPLATES AND MORE WITH ONBOARDING BY THREAD

Great for companies...
- with high turnover
- that are larger and do several hires a year
- are growing
- who don't have an HR person on staff
